What this means

- 1 **A later replacement.** The next new roof moves from year 8 to year 11, leaving 10 years of roof life at year 20 instead of 2.
- 2 **Smaller repairs.** Emergency repairs run about 3× the planned rate, and the PaxSeal fee covers half of planned repairs. Together that saves \$1.07M.
- 3 **The program pays for itself.** Each \$1 of fees avoids about \$2.57 of other cash roof costs.

Property value is the yearly gain in net operating income divided by the cap rate, for income property where the owner pays for the roof.
