What this means

1. **A later replacement.** The next new roof moves from year 8 to year 11, leaving 10 years of roof life at year 20 instead of 2.
2. **Smaller repairs.** Emergency repairs run about 4.2× the planned rate in a medical facility, and the PaxSeal fee covers half of planned repairs. Together that saves $1.17M.
3. **Patient care keeps running.** A leak in a clinical area triggers infection-control work, closes rooms and can damage equipment.
4. **The program pays for itself.** Each $1 of fees avoids about $4.59 of other cash roof costs.
