Credit for roof life left	-\$135K	-\$36K	+\$99K
Net 20-year cost	\$675K	\$1.02M	+\$343K

What this means

- 1 **A later replacement.** The next new roof moves from year 8 to year 11, when it costs less in today's dollars.
- 2 **Smaller repairs.** Fixes made on scheduled visits avoid emergency work at about 3.8× the cost in an apartment property, saving \$419K.
- 3 **Fewer unit turns.** A leak into an apartment means displaced residents, mold risk and lost rent. Early repairs keep units occupied.
- 4 **The program pays for itself.** Each \$1 of fees avoids about \$3.71 of other roof costs.
