What this means

- 1 A later replacement. The next new roof moves from year 8 to year 11, when it costs less in today's dollars.
- 2 Smaller repairs. Fixes made on scheduled visits avoid emergency work at about 3.9× the cost in a school, saving \$1.56M.
- 3 A predictable budget line. Emergency repairs become a fixed annual cost the board can plan for, and leaks stop closing classrooms.
- 4 The program pays for itself. Each \$1 of fees avoids about \$4.05 of other roof costs.
