What this means

- 1

A later replacement. The next new roof moves from year 8 to year 11, when it costs less in today's dollars.
- 2

Smaller repairs. Fixes made on scheduled visits avoid emergency work at about 3× the cost, saving \$1.61M.
- 3

The program pays for itself. Each \$1 of fees avoids about \$5.15 of other roof costs.

Property value is the yearly gain in net operating income divided by the cap rate, for income property where the owner pays for the roof.
